## Follow the instructions to find the number you end at.

Ex) Start at 15 and count up 2 times by fives.

1) Start at 408 and count up 4 times by tens.
2) Start at 574 and count up 3 times by tens.
3) Start at 141 and count up 4 times by tens.
4) Start at 444 and count up 2 times by hundreds.
5) Start at 250 and count up 4 times by hundreds.
6) Start at 380 and count up 2 times by fives.
7) Start at 503 and count up 2 times by hundreds.
8) Start at 270 and count up 3 times by hundreds.
9) Start at 603 and count up 4 times by tens.
10) Start at 225 and count up 3 times by fives.
11) Start at 190 and count up 4 times by fives.
12) Start at 2 and count up 5 times by tens.
13) Start at 605 and count up 3 times by tens.
14) Start at 94 and count up 3 times by hundreds.
15) Start at 450 and count up 4 times by hundreds.
16) Start at 240 and count up 4 times by fives.
17) Start at 605 and count up 2 times by fives.
18) Start at 155 and count up 3 times by fives.
19) Start at 748 and count up 5 times by tens.
20) Start at 240 and count up 3 times by fives.
