Name:

Buckle up, kids, because we're about to dive into the world of gopher snakes! It's a reptile that slithers around on the ground, but don't be scared, these guys are harmless, and actually quite cool. Gopher snakes can grow up to 9 feet long, that's taller than most grown-ups! They have a pretty neat pattern on their skin that helps them blend in with their environment, making them masters of hide and seek.

Speaking of environments, would you like to know

where these awesome reptiles live? Gopher snakes can be found across North America, from the sunny beaches of California to the beautiful plains of the Midwest. They are at home in a variety of places like deserts, forests, and even your own backyard. These snakes are pretty adaptable, and that's part of what makes them so fascinating!

Now that we've chatted about where they live, let's talk about what gopher snakes eat. Gopher snakes have a really varied diet, but their favorite food is, you guessed it, gophers! But don't worry, they also eat other small creatures like mice, birds, and eggs. They're not picky eaters, and that's a good thing because it helps keep the ecosystem balanced.

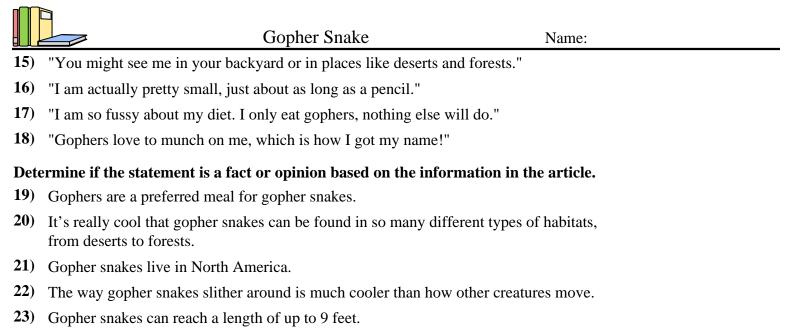

world healthy and balanced.

Let's wrap things up by talking about gopher snakes and us, humans. These snakes are often misunderstood, but they're actually handy to have around because they help control pest populations. And here's a fun fact: gopher snakes will often mimic rattlesnakes to scare off predators, but they're harmless to humans. So next time you see a gopher snake, remember it's just doing its job, helping to keep our

- 14) "I can be seen only in Europe."

- 24) The ability of gopher snakes to eat a variety of small creatures is just amazing.
- 25) Gopher snakes consume a variety of creatures including mice, birds, and eggs.
- 26) Gopher snakes can be found in various habitats, including deserts and forests.
- 27) It's amazing that a gopher snake can grow so much larger than a human.
- 28) It is amazing that gopher snakes can mimic rattlesnakes to scare off predators.

## Determine if the statement is true or false.

- **29)** Gopher snakes are found across North America.
- **30)** Gopher snakes are only found in California.
- **31**) Gopher snakes can mimic rattlesnakes to scare off predators.
- **32)** Gopher snakes only eat gophers, nothing else.
- **33**) Gopher snakes can grow up to 9 feet long.
- **34**) Gopher snakes' bite is lethal.
- **35)** Gopher snakes can only be found in deserts.
- **36)** Gopher snakes can grow up to 20 feet long.
- **37)** Gopher snakes eat gophers, mice, birds, and eggs.
- **38)** Gopher snakes are adaptable to different environments.

## Determine if the sentence is a declarative(d), exclamatory(e), interrogative(i) or imperative(m).

- **39)** Gopher snakes are primarily nocturnal and hunt at night.
- **40)** Why are they called gopher snakes?
- **41**) Gopher snakes are known for their ability to mimic rattlesnakes.
- **42)** Gopher snakes are non-venomous snakes.
- **43)** How do gopher snakes defend themselves?
- **44)** Where do gopher snakes live?

28) It is amazing that gopher snakes can mimic rattlesnakes to scare off predators.

## Determine if the statement is true or false.

- **29**) Gopher snakes are found across North America.
- **30**) Gopher snakes are only found in California.
- **31**) Gopher snakes can mimic rattlesnakes to scare off predators.
- **32**) Gopher snakes only eat gophers, nothing else.
- **33**) Gopher snakes can grow up to 9 feet long.
- **34**) Gopher snakes' bite is lethal.
- **35**) Gopher snakes can only be found in deserts.
- **36**) Gopher snakes can grow up to 20 feet long.
- **37)** Gopher snakes eat gophers, mice, birds, and eggs.
- **38)** Gopher snakes are adaptable to different environments.

## Determine if the sentence is a declarative(d), exclamatory(e), interrogative(i) or imperative(m).

- **39)** Gopher snakes are primarily nocturnal and hunt at night.
- **40)** Why are they called gopher snakes?
- 41) Gopher snakes are known for their ability to mimic rattlesnakes.
- 42) Gopher snakes are non-venomous snakes.
- **43)** How do gopher snakes defend themselves?
- **44**) Where do gopher snakes live?
