

Guess what, the common gray fox is not just any ordinary fox! Its fur is a lovely mix of white, red, gray, and black, with a bushy tail that usually has a black stripe running along its top. This little fox is about the size of a small dog, but don't let its size fool you! Its sharp claws and agile body make it a very skillful and interesting creature.

Speaking of skillful, did you know that gray foxes are excellent climbers? They live in various habitats including forests, grasslands, and even suburban areas, making trees their homes or dens under the ground. These foxes are found all over North and Central America. So, if you happen to see a fox up in a tree, it's probably a gray fox!

Just like us humans, gray foxes enjoy a varied diet. Their menu includes small mammals like rabbits and mice, as well as birds, insects, and even plants and fruits. In fact, gray foxes are the only canines in the world that can climb trees, often doing so to hunt or to escape predators. They are also mostly nocturnal, which means they hunt for food at night.

You might be wondering, how do these foxes interact with humans and other animals? Well, gray foxes are usually shy and avoid people, but they are known to occasionally make themselves at home in our yards and gardens. They also play a vital role in the ecosystem by controlling the population of small rodents and insects. So, next time you think of a fox, remember our friend the common gray fox, a unique and fascinating member of the canine family.

Solve each problem.

Use the article to answer the question.

- 1) How big is a gray fox?
 - A. The size of a bear
 - B. The size of a mouse
 - C. The size of a cat
 - D. About the size of a small dog
- 2) Can gray foxes climb trees?
 - A. Yes, they are the only canines in the world that can climb trees
 - B. No, they can only jump to catch birds
 - C. No, they are too heavy
 - D. No, they cannot climb trees
- 3) When do gray foxes hunt for food?
 - A. All day
 - B. In the afternoon
 - C. In the morning
 - D. At night
- 4) Do gray foxes live in Africa?
 - A. Yes, they are commonly found in different parts of Africa
 - B. No, they live in North and Central America
 - C. No, they inhabit the forests of Europe
 - D. No, they live only in South America
- 5) Where might you find gray foxes living?
 - A. On river banks
 - B. Out in the open
 - C. In dens underground
 - D. In bushes or shrubs
- 6) What kind of diet do gray foxes have?
 - A. Herbivore
 - B. Carnivore
 - C. Omnivore
 - D. Insectivore
- 7) How do gray foxes interact with humans?
 - A. They are usually shy and avoid people
 - B. They are friendly and approach people
 - C. They are aggressive and attack people
 - D. They are curious and follow people
- 8) What family does the gray fox belong to?
 - A. The bird family
 - B. The rodent family
 - C. The canine family
 - D. The feline family
- 9) What colors can you find in gray fox fur?
 - A. Brown, gray, black and white
 - B. White, red, gray and black
 - C. Brown, yellow, black and white
 - D. Yellow, green, red and black
- 10) What role do gray foxes play in the ecosystem?
 - A. They destroy crops
 - B. They control the population of small rodents and insects
 - C. They create imbalance in the ecosystem
 - D. They spread diseases

Determine if the statements is something the animal would say (W) or it it is not something the animal would say (N).

- 41)** Gray foxes aren't just gray, they've got reddish and white fur too.
A. are able B. do not
C. will not D. are not
- 42)** Gray foxes don't just live in forests, they can live in grasslands and suburbs too.
A. do not B. does not
C. cannot D. did not
- 43)** Did you know they're great climbers and can even climb trees?
A. they do B. they will
C. they are D. they were

Determine if the sentence is a declarative(d), exclamatory(e), interrogative(i) or imperative(m).

- 44) Gray foxes are omnivores, meaning they eat both meat and plants.
- 45) How fast can gray foxes run?
- 46) Gray foxes have a bushy tail.
- 47) Gray foxes are native to North and Central America.
- 48) Can gray foxes climb trees?
- 49) Do gray foxes have good eyesight?
