

Use the candy box to solve each problem.

Answers

- 1) If you picked 1 piece of candy out of the box which flavor would you have the highest probability of selecting?
- 2) What is the probability of selecting a grape piece?
- 3) If you picked a piece at random would you be more likely to select, a lemon piece or a cherry piece?
- 4) How many total pieces of candy are in the box?
- 5) Your friend wants either a cherry piece or a grape piece. If you picked a piece out randomly, which one would you have the highest probability of selecting?
- 6) If you ate 4 lemon pieces, 5 cherry pieces and 3 grape pieces, which flavor would you have the highest probability of selecting next?
- 7) What is the probability of selecting either a cherry piece OR a grape piece?
- 8) What is the probability of selecting a lemon piece?
- 9) Which flavor has the lowest probability of being selected?
- 10) What is the probability of selecting a cherry piece?
